Objective

Enthusiastic and detail-oriented aspiring Frontend Developer with a strong foundation in HTML, CSS, and JavaScript. Eager to contribute to a collaborative development team and grow as a developer by building modern, user-friendly web interfaces.

Skills

- Languages & Technologies: HTML5, CSS3, JavaScript (ES6+), TypeScript (basic)
 - Frameworks & Libraries: React, NextJs, Tailwind CSS, Bootstrap
 - Tools & Platforms: Git, GitHub, VS Code, Figma, Adobe XD, Chrome DevTools
 - Other Skills: Responsive Design, REST APIs, Version Control, Cross-Browser Compatibility
-

Projects

Personal Portfolio Website

- HTML, CSS, JavaScript, Nodejs and Supabase
- Designed and developed a responsive personal portfolio showcasing skills and projects.
- Implemented smooth scrolling and interactive elements using vanilla JavaScript
- Implemented database for messages sent from the site using Nodejs and Supabase as database.

Construction Page

- React, Swiperjs and Typewriter effect.
- Built a static construction page with Reactjs.
- Styled with CSS module for a clean, modern layout.
- Implemented some animations with Typewriter and Swiperjs libraries respectively.

Task Tracker App

- HTML, CSS, JavaScript
 - Created a basic to-do app that allows users to add, delete, and mark tasks as complete.
 - Used localStorage to persist tasks across browser sessions
-
